Chicago Begins Construction of Final New Runway

08.16.16

The City of Chicago recently broke ground of the final runway as part of the O'Hare Modernization Program. Like much of the Program, this \$650 million runway has been controversial. For a good explanation of the issues and the controversy, see this article from the Chicago Sun Times. The Firm has been advising the City of Chicago on several components of the O'Hare Modernization Program.
