

Firm Client Officially Closes Financing and Begins Construction on TOD Project

06.12.15

Over the past three years, the Firm has represented the City and County of Denver Department of Aviation with regards to a public-private partnership for the development of the Peña Station rail station as a transit-oriented development. The Firm's involvement included issues related to real estate, public and private finance, and use and other regulatory issues. The Denver City Council approved the key agreements associated with the \$50 million infrastructure financing package in May 2015. The financing closed and construction commenced in June 2015.
