## **Polly Jessen Presents Webinar on Mitigating Environmental Liability from Construction Debris and Contaminated Soil**

### ***Strafford Publications Webinar***

**02.12.19**

On Tuesday, February 12, 2019, Polly Jessen discussed how to mitigate environmental liability from construction. The webinar offered guidance to environmental counsel with how mitigate the environmental risks and liability resulting from construction debris and leading to contaminated soil. The panel offered steps for counsel to all parties involved—landowners, potential purchasers, construction contractors, and so forth—to determine which party or parties are liable for cleanup and recovering remediation costs.
